EXECUTIVE SUMMARY

Solutions Architect with 25+ years of experience building scalable cloud platforms, AI-powered products, and enterprise applications. Deep expertise across frontend engineering, backend systems, AWS infrastructure, and AI integrations (OpenAI, RAG). Experienced leading multidisciplinary teams, managing enterprise deployments, and partnering directly with stakeholders and clients.

PROFESSIONAL EXPERIENCE

Lead Web Developer / Technical Lead — GoingClear Interactive

2017 – Present | Boston, MA

- Lead development of enterprise websites, SaaS platforms, eCommerce systems, AI-powered apps, and PWAs.
- Architect headless CMS and hybrid SPA platforms; manage AWS deployments and cloud infrastructure.
- Build AI-powered recommendation and chatbot systems; lead client-facing technical strategy and delivery.

Senior Web Application Developer — PDVSA

2004 – 2016 | Venezuela

- Built mission-critical enterprise applications, large-scale databases (Oracle, SQL Server, MySQL), ETL processes, and BI dashboards for executive decision-making.

Automation Project Manager — PDVSA

2001 – 2004

- Led automation initiatives and centralized reporting; implemented inventory, payroll, and accounting systems.

FEATURED PROJECTS

Real-Time Odds & Market Monitoring Platform

Real-time monitoring ecosystem with AWS, Django APIs, React, and subscription-based SaaS workflows.

React · Django · AWS · WooCommerce · Python

AI Assistant for a Book Search Platform (Lee & Low)

Conversational AI recommendations integrated with Zoho CRM sync and advanced product discovery.

AI Integrations · WordPress · Zoho CRM · Custom APIs

F Prime Capital Fintech Index

Analytics dashboards integrating GitHub APIs, CSV pipelines, regression calculations, and D3.js visualizations.

React · D3.js · GitHub API · WordPress

Insurance Broker Portal · Amigo App · Global Compensation Survey

Payroll/benefits tools with PDF generation; headless WordPress social app; real-time compensation analytics dashboards.

React · REST APIs · Chart.js · Headless WordPress

TECHNOLOGY STACK

Frontend: React, Next.js, TypeScript, Angular, Vue.js, Tailwind CSS, D3.js, Chart.js

Backend: Node.js, Python, Django, PHP, REST APIs, API Integrations

Cloud: AWS (EC2, Elastic Beanstalk, RDS, S3), Vercel, GitHub Actions

AI: OpenAI APIs, RAG Systems, AI Chatbots, Vector Databases, AI Search

CMS: WordPress, HubSpot, Shopify, WooCommerce, Webflow, Headless CMS
